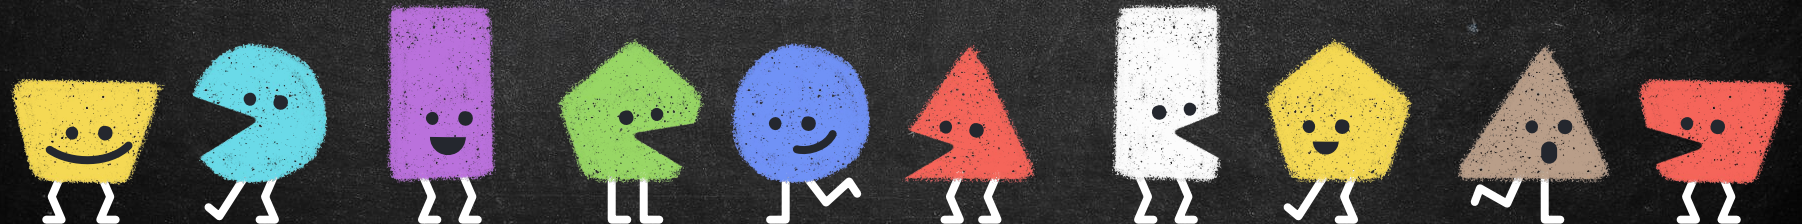
Having trouble finding the next anime to watch?

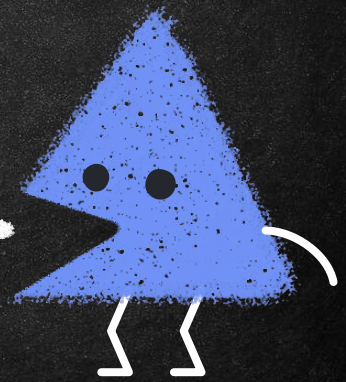
We present AniRate, a rating & recommendation app which

- Gives you all the anime ratings from the community
- Selects filters to find the best from your desired type of anime
- Shows detailed information about ones of your interest
- Gives personal recommendation according to past activities
- Allows you to comment and interact with other users

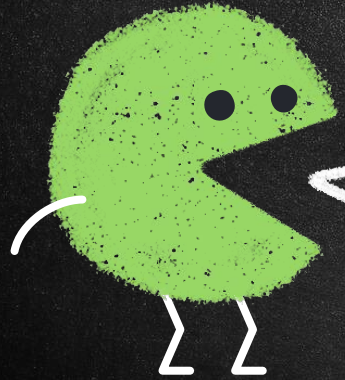


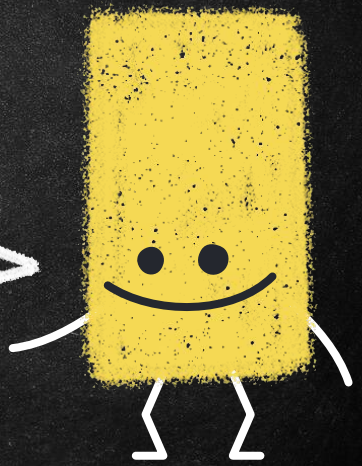
Feedback Overview

- Page Issues
  - login & trending page
- Design typos
- Lack of functions
- Appearance



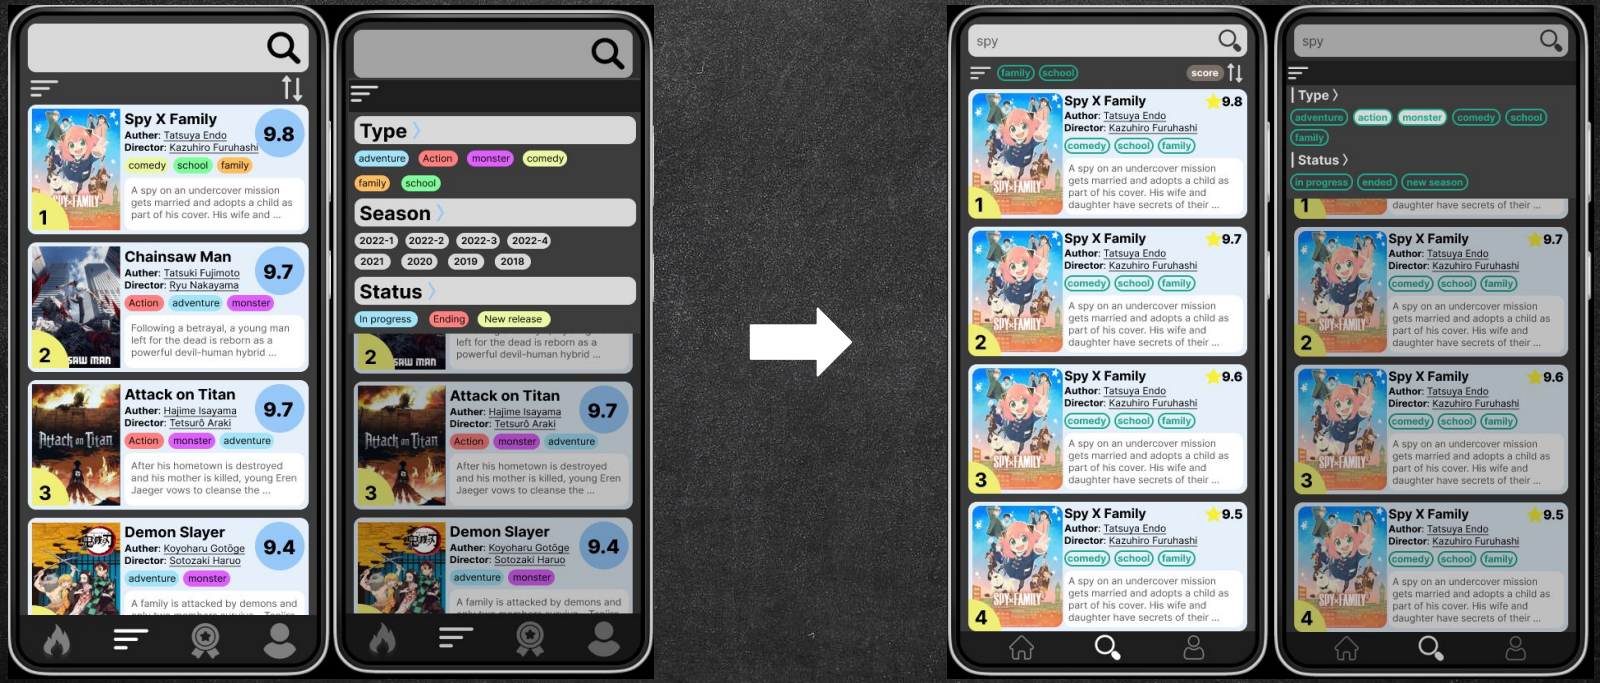
Heuristic Review Result & Revised Design (Severity 3)





1. Invisible Filter Status – violation [2, 3]

Heuristic Type: H1 Visibility of System Status

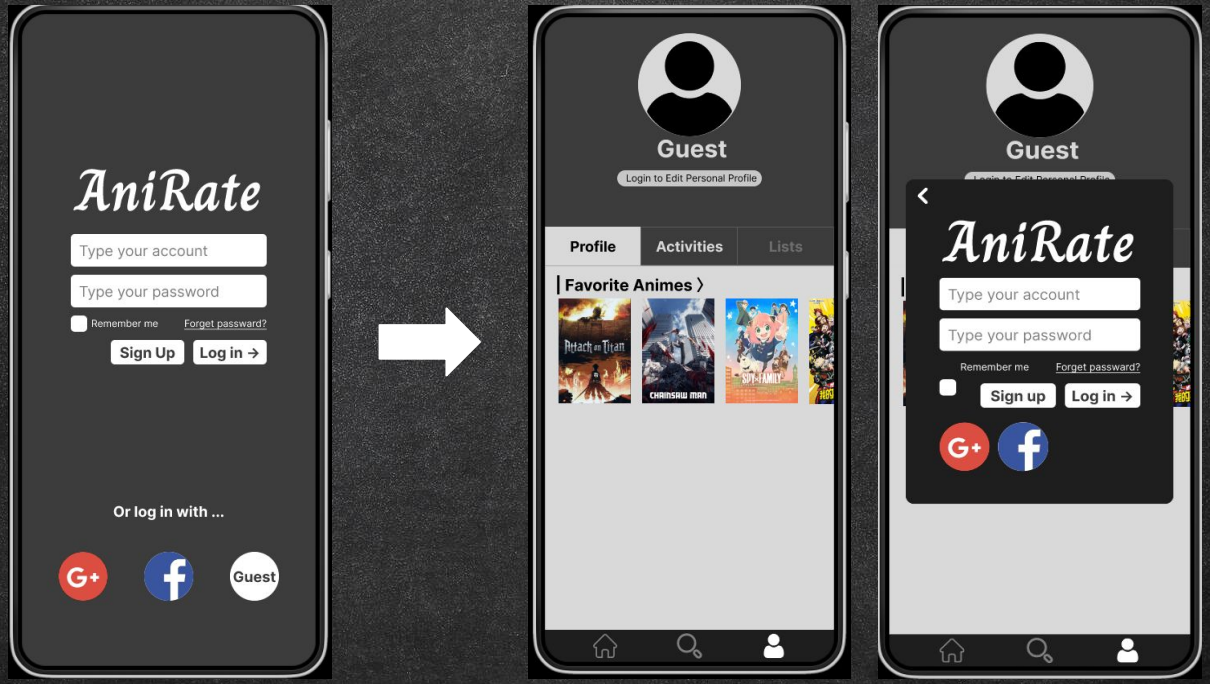


2. Unhumanized Scroll Design – violation [11]

Heuristic Type: H2 Match b/w System and World

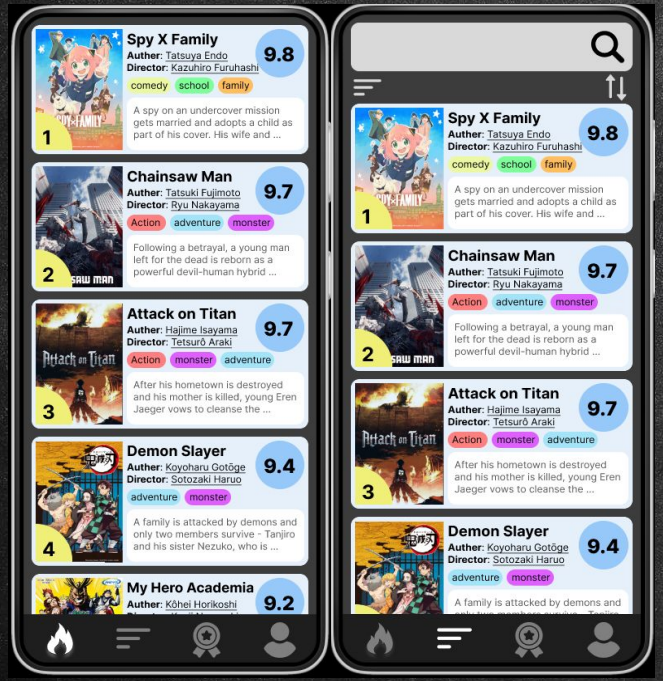
3. Forced Login – violation [7]

Heuristic Type: H3 User Control & Freedom



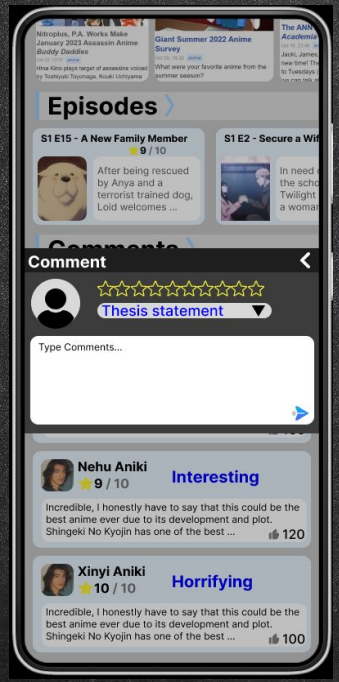
4. Ambiguity of Trending Page – violation [1, 16]

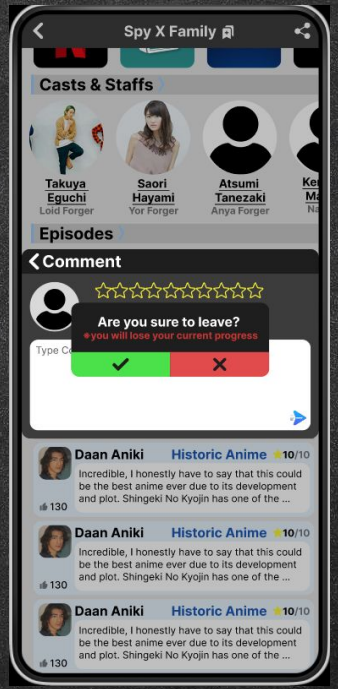
Heuristic Type: H8 Aesthetic & Minimalist Design



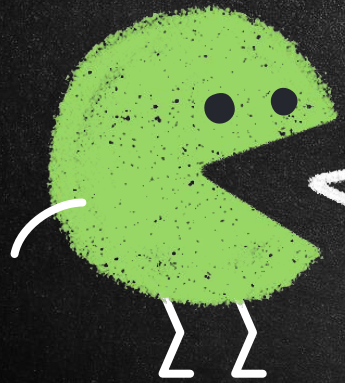
5. Exit w/o Error Prevention – violation [12]

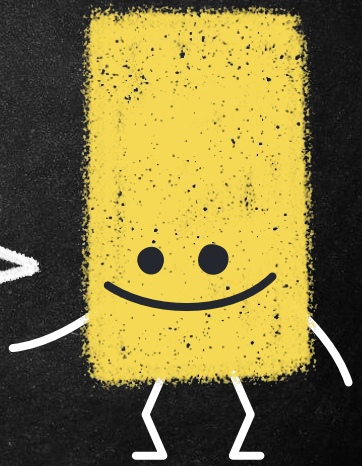
Heuristic Type: H5 Error Prevention





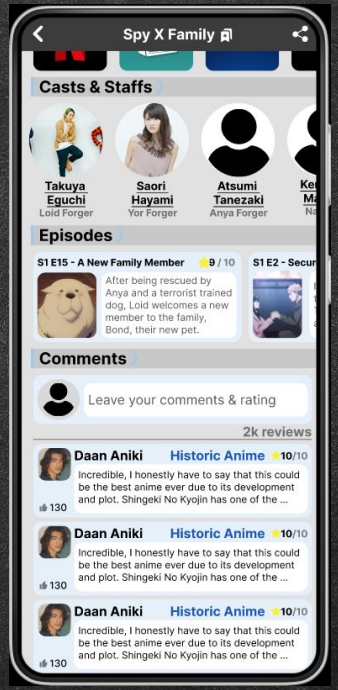
Heuristic Review Result & Revised Design (Severity 4)





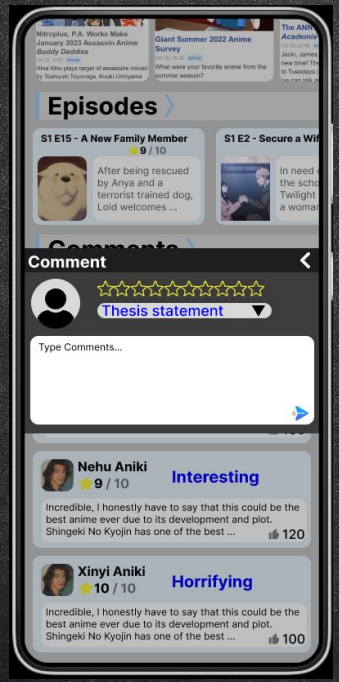
1. Unfixed Header – violation [8]

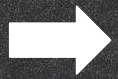
Heuristic Type: H3 User Control & Freedom

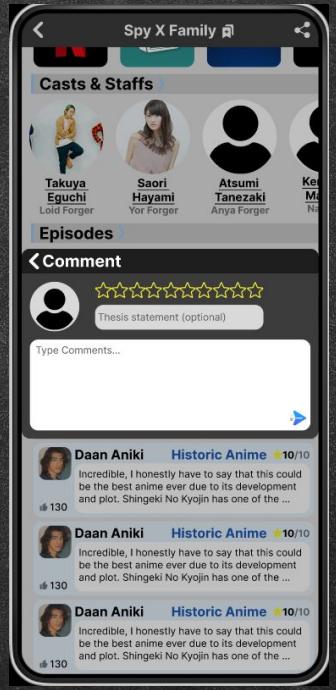


2. Ignorable Thesis Statement – violation [13]

Heuristic Type: H5 Error Prevention

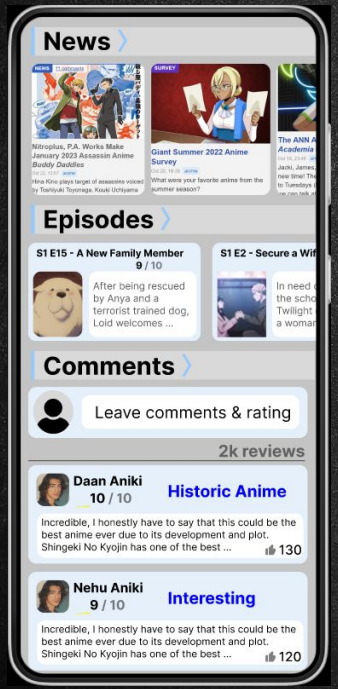


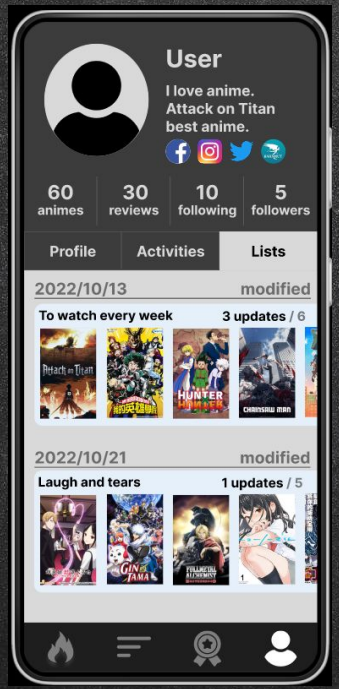




3. Lack of Functions – violation [18, 22]

Heuristic Type: H10: Help & Documentation





Solved

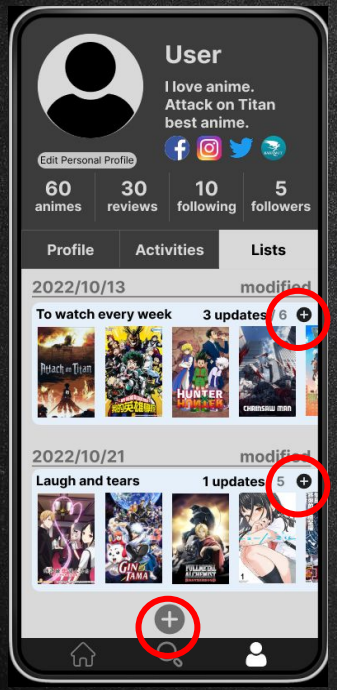
- edit personal profile
- create / edit lists
- follow people
- edit comment / personal profile

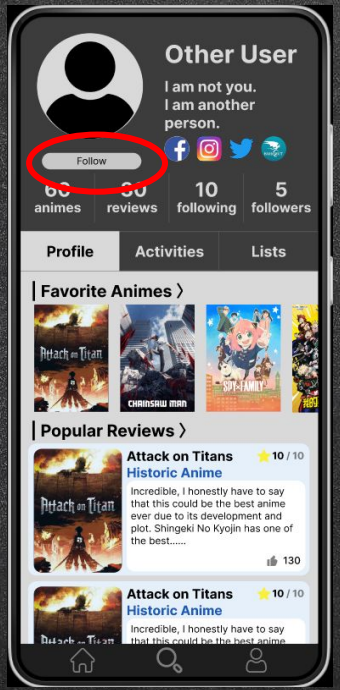
Unsolved

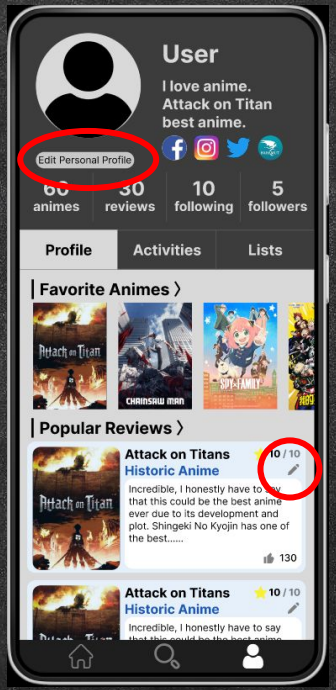
- rate episodes
- view followers / followings

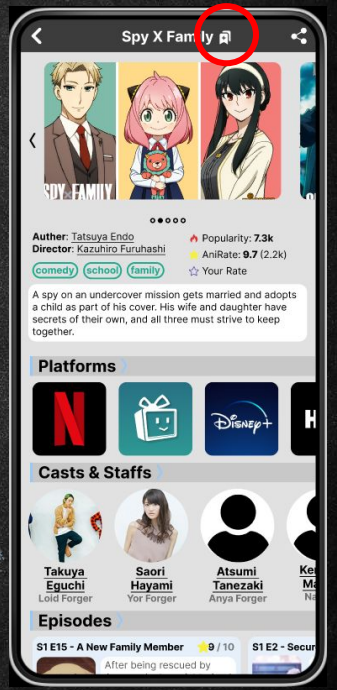
3. Lack of Functions – violation [18, 22]

Heuristic Type: H10: Help & Documentation

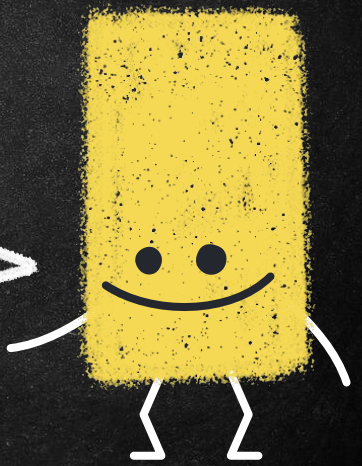






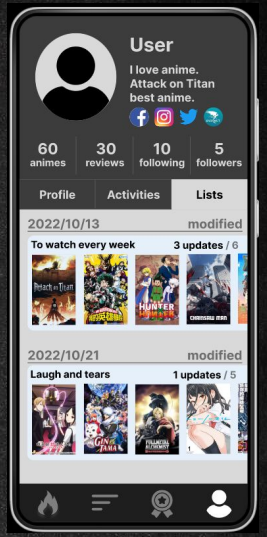


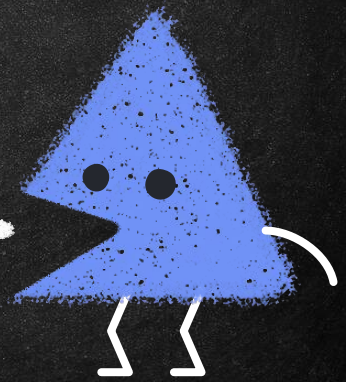
Unsolved Violations



Unsolved Violations

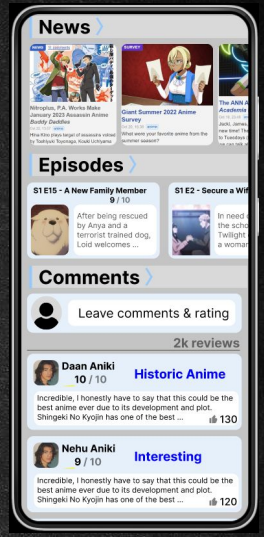
- 18. H8 Aesthetic & Minimalist Design [Severity 3]
  - Description: Lack of functions of view followers / followings
  - Unsolved reason: We think the feature is not that important for mid-fi prototype and didn't implement it.

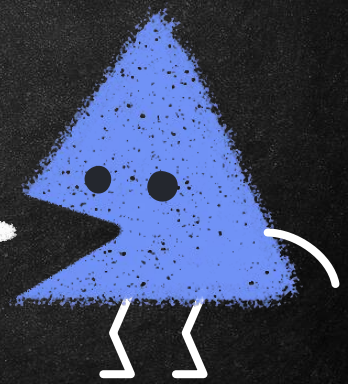




Unsolved Violations

19. H8 Aesthetic & Minimalist Design [Severity 2]
    - Description: Lack of function to fold information titles, e.g. Casts, Staffs, News ...
    - Unsolved reason: We decide to take it as a tradeoff. Keeping the layout fixed saves effort for user(scrolling rather than tapping) but results in a page with more information.





Unsolved Violations

21. H10 Help & Documentation [Severity 1]
    - Description: Better to credit the information sources and add clear explanations for how the data is counted.
    - Unsolved reason: Not an important issue for midfi prototype.

Summary

- We resolved over 80% of the violations found by the reviewers, most of them are simple design typos or due to lack of functionalities
- Many violations can be prevented if we know the heuristics beforehand, like error prevention, visibility, etc.
- Keeping standard and prefabs helps reduce effort of fixing prototypes.
- Many suggestions are about our visual appearance, showing the importance of designing and aesthetic skills.....
